

Akelius doubles gifts to the Children of the World

2023-09-18, Fastighetsvarlden

During the autumn, the Akelius Foundation will match the gifts that Världens Barn receives through its campaign via Radiohjälpen.

The collection will be used to support educational projects in the world.

If the gifts given between September 18 and October 31 amount to SEK 100 million, the Akelius Foundation donates SEK 100 million.

The gift from Akelius will be used to support educational projects worldwide.

It is not the first time that Akelius has matched aid organizations' collections.

In the spring of 2022, the foundation doubled the gifts received by UNICEF and UNCHR's work in Ukraine, and in 2019, Akelius matched gifts to Doctors Without Borders, SOS Children's Villages and UNICEF for their work in the Moria camp in Lesbos.
