

Save the Children in North West Balkans

2023-10-17

Akelius digital platform continues to shape children's minds and teaches them not only new words, but also helps them navigate everyday situations.

The week started with getting to know traffic terms in German with the help of the Akelius application.

This raises awareness of following the rules on the streets and major intersections and thus educates the youngest about traffic behavior and increases their safety.

With the help of the Akelius digital platform and a combined approach in teaching, children from selected primary schools of the Una-Sana Canton learn new words and expressions, and these activities are implemented in cooperation with the Ministry of Education, Science, Culture and Sports of the Una-Sana Canton, @UNICEF Bosnia and Herzegovina and Save the Children for the Northwest Balkans.
