

📍 On 08.02.2024, the Observer organized a visit to the "Gjergj Fishta" school in Lezhe, where we had the opportunity to closely observe the use of the AKELIUS platform in the development of the English language lesson.

✓ During the visit, we had the opportunity to distribute Akelius books for teachers to help the teaching staff in organizing the lesson.

📎 The Akelius initiative is being implemented by the "Observatory for the Rights of Children and Young People" in partnership with [@unicefalbania](#) and in cooperation with [@ministriaarsimit](#)
