the school of Djamballa

April 2024

the school day

Every day the students gather in the center of the square and do the flag-raising ceremony. They sing the national anthem of Mali and enter their classrooms.

The class composition didn't change. Out of 98 students enrolled at the beginning of the year, only one third-year student dropped out due to family problems.

Basic hygiene classes were organized with a trained nurse.

During the first lesson, the children were all gathered in one classroom.

They were thoroughly examined and no health problems were found.

furniture and football

In early March, a transport of materials to the village was carried out.

When the village receives something from outside, it is always exciting.

Villagers get together and help to unload, and assemble the materials.

maintenance of the school building

After almost a full school year,
the building and outdoor area are still in perfect condition.

The school committee organizes cleaning shifts to maintain
the space clean.

The construction company will organize a mission to
fix some minor problems found in the amphitheater's seating.

protection systems

The teachers' apartments are the only dwellings in the village with electric light.

To solve the major problem of nocturnal insects, a window protection system consisting of a mosquito net and metal gratings was laid in place.
