

Help the children in Gaza

Gaza is the worst and most dangerous place in the world for children. UNICEF is on the ground fighting to save children's lives. Donations via this page are earmarked for Gaza. Right now, your donation is also being doubled by the Akelius Foundation.

Donations to Gaza doubled by Akelius Foundation

During the period January 27 - February 28, 2025, every gift you make to UNICEF Sweden's earmarked collection for Gaza will be doubled, thanks to the Akelius Foundation.

There is no cap on how much the Akelius Foundation will contribute in total.

The maximum doubling for an individual gift is SEK 10 million. Read more about the doubling [here](#).

The children in Gaza are injured, hungry, sick, dehydrated, exhausted and severely traumatized. Over 50,000 children are acutely malnourished and at risk of dying without treatment. The emergency aid that UNICEF is bringing in is the difference between life and death for thousands of children.

UNICEF delivers, among other things:

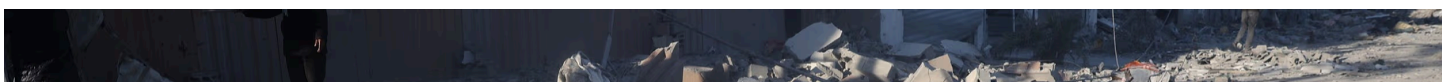

- Clean drinking water.
- Medicines and medical equipment so that injured, sick and malnourished children can receive medical care.
- Nut cream, high-energy biscuits and nutritional supplements for children and pregnant women suffering from malnutrition.

UNICEF's deliveries have saved the lives of thousands of children. But the needs are enormous and much more emergency aid is needed to prevent a famine.
