

UNICEF Bosnia and Herzegovina

In 2022, the Akelius Digital Language Learning Course began to be used in regular classes and extracurricular activities in primary schools in Sarajevo Canton and Una-Sana Canton, and so far over 2,500 students in 8 primary schools in these two cantons have had the opportunity to learn foreign languages using the Akelius Digital Course.

The Akelius Digital Course contributes to the development and personal needs of both students and teachers, and it has been shown that the use of the Akelius Digital Course improves learning outcomes, especially at the beginning levels, and especially for students who continuously use the Akelius Digital Course.

UNICEF BiH supports the educational authorities in these cantons in strengthening the digital competencies of teachers, hybrid teaching methods, and the use of the Akelius Digital Course.

See the experiences of the teacher from the First Elementary School of Ilidža Bogdanka Dubak in the implementation of the Akelius Digital Course in regular classes with eighth-grade students.
