

UNICEF SÃO TOMÉ E PRÍNCIPE

On the third day of the Digital Learning Week, we highlight the engagement of Young Volunteers in the National Digital Learning Program (PNAD).

Whether in terms of the logistics of using equipment or the use of the Akelius and Learning Passport platforms, whether in supporting students and teachers or in promoting activities in schools, Young Volunteers are fundamental in the implementation and development of the PNAD.

We recall that, at the end of August, two editions of the PNAD Initiation to Volunteering Workshop were organized, at the Youth Institute, in order to create the base of support for the Program in the academic year 2023/2024. This initial 10-hour training will be replicated in other districts of São Tomé and also in the Autonomous Region of Príncipe.

Collaborating with the MECC, with UNICEF, with the Instituto da Juventude or within your own school, through the creation of a Digital Learning Club, challenge yourself to acquire and share digital literacy skills! We share the testimonies of @Marta Cruz and @Joel Almeida, PNAD Young Volunteers, about the importance and impact of this experience.

The Digital Learning Week is promoted annually by @UNESCO, as a way to raise awareness of the importance of this topic and to give visibility to good practices developed around the world. PNAD is a Program of the Ministry of Education, Culture and Sciences of São Tomé and Príncipe, supported by UNICEF of São Tomé and Príncipe.
